

Chronological style

You may like the Chronological style if this sounds like you...

"I like to see how each of my banking transactions impacts my account balance. By seeing all my transactions in posting order, regardless of transaction type, it's easy to verify the account balance and to use software programs to reconcile my account."

The Chronological style:

- Lists all transactions in chronological order by date posted
- After each transaction, the resulting balance is displayed for easy account reconciliation

Every statement style includes...

- An Account Summary that provides an easy-to-read overview of the account
- An Account Activity section with detailed transaction history
- Interest Rate, APY and Tax Information sections for interest-bearing accounts
- A Fee Summary, when applicable, to help reconcile fees, refunds, and Banking Package rebates
